

## Getting Test aUSDC on Any Chain

If you want to obtain test aUSDC on the Scroll or any chain for your or testing purposes, you can follow these steps:

### Step 1: Join Axelar Discord

- To get test aUSDC, you will need to join the Axelar Discord community. If you haven't already, you can do so by following this link: [Axelar Discord](#).

### Step 2: Access the Faucet Channel

- Once you've joined the Axelar Discord server, navigate to the "Faucet" channel.

### Step 3: Request Test aUSDC

- In the Faucet channel, you can request test aUSDC by typing the following command:

`!faucet chainName Address`

- Replace **chainName** with the name of the Axelar chain you want to receive test aUSDC on (e.g., "scroll").
- Replace **Address** with your wallet address on the Axelar Network where you want to receive the test aUSDC.

For example, if you want to receive test USDC on the "scroll" chain and your wallet address is **0xe57f4c84539a6414C4Cf48f135210e01c477EFE0**, you would type:

```
!faucet scroll 0xe57f4c84539a6414C4Cf48f135210e01c477EFE0
```

### Step 4: Receive Test aUSDC

- After typing the command, you will receive 500 aUSDC in your provided wallet address on the Axelar Network.
